"Rust"s primary gameplay revolves around gathering resources and crafting items in order to survive in a harsh environment riddled with other players. The primary task is to craft weapons, beginning with only a rock and a torch as tools at the beginning of the game. Once enough resources are gathered, tools such as pickaxes can be made in order to speed up collection of resources which are spread randomly across the map. These resources include wood, stone, metal as well as a variety of gas cannisters and cloth/thread. Later on in the game, electricity can be generated by large generators requiring the same gas cannisters found earlier in the game.",

How do I Join a Minecraft Server? " There are multiple ways that you can join a

Minecraft server depending on what type of mod support it offers. The first way that you can join a server is by manually entering the IP address or host name into your internet browser. When this page loads, click on one of the available selections and then select to join it. If you are using a Bukkit or Tekkit server, then you will need to download their respective client before connecting. The instructions for downloading and connecting to these servers are usually included in the website's instructions on how to connect. The other way that you can join a Minecraft server is by joining through another Minecraft user who is already online. If someone invites you then all that you have to do is click on their name and it will take you directly there.",

When you first install your Minecraft server, you need to create a separate user account that has administrator rights. Unless you are planning on running an open-range PVP server, it is best to make sure all access to your Minecraft Server is denied at this point. It is also always a good idea to have a backup of your install in case anything happens. This can help if you need to re-install the server or just get back into the game quickly.",

Minecraft Bedrock Edition offers a much more convenient way to play Minecraft and it's compatible with iOS, Android and Windows 10 devices. You don't need any special hardware or software in order to use your server. All you need is a mobile device to connect to it and you're ready to go. The process of starting your server is very simple and anyone can do it, so you'll be playing in no time! You can also make purchases with in-game currency for extra characters, skins and other stuff from the Minecraft Marketplace, so if you decide to buy something from there you won't have any problems or issues at all.",
