Minecraft Bedrock Edition offers a much more convenient way to play Minecraft and it's compatible with iOS, Android and Windows 10 devices. You don't need any special hardware or software in order to use your server. All you need is a mobile device to connect to it and you're ready to go. The process of starting your server is very simple and anyone can do it, so you'll be playing in no time! You can also make purchases with in-game currency for extra characters, skins and other stuff from the Minecraft Marketplace, so if you decide to buy something from there you won't have any problems or issues at all.",

Minecraft is a sandbox game originally designed and created by Markus "Notch" Persson, and now developed by Mojang. It was publicly released for the PC on May 17, 2011, as a developmental alpha version and, after gradual updates, was published as a full release version on November 18, 2011. A version for Android was released a month earlier on October 7, and an iOS version was released on November 17, 2011. On May 9, 2012, the game was released on Xbox 360 as an Xbox Live Arcade game. The game allows players to build with a variety of different blocks in a 3D procedurally generated world. Other activities include exploration, resource gathering, crafting, and combat. The PC version of the game is published by Mojang. The Xbox 360 version is published by Microsoft Studios. The release of the mobile versions are handled by external publishers, such as Electronic Arts, Ubisoft, Warner Bros. Interactive Entertainment and Halfbrick Studios for iOS devices, and Mojang for Android. The game is currently available on all major platforms except Google Chrome OS.",

The specific hacks used by rust players are often used by other games, and as such have been modified to suit the needs of rust. Using these cheats can result in a game ban on the account in question, but as the game is still in early access this is not guaranteed. Facepunch Studios bans players for using cheats on their servers, however this does not apply to singleplayer and on private servers which do not use the official Facepunch credentials.",

In April 2021, it was revealed that "Rust" had already been banned by Valve Corporation from distribution on its Steam platform for violating the company's end user license agreement. The ban was later lifted under appeal but made clear that Valve intended to introduce further restrictions based upon future violations of its terms of service.",

There are three different ways in which you can connect to a server: first is by using a computer directly connected to the internet through LAN (Local Area Network) port, second is by using a mobile phone, tablet or any other device connected to the internet through WiFi or Data connection. If you choose the second option, please make sure that the username and password you have created for the account on Minecraft Bedrock Server are valid and correct. For best results, you should use a password that will not be easy for hackers to guess and change frequently. Also, please watch out for suspicious emails that inform you about your account and try to trick you into entering your username and password.",
